

07/02/09 - AT&T Better than Verizon?

Im on vacation in Misquamicut Beach, RI and of course there is no random open WiFi here so I have been using my Verizon EVDO Card. It's much slower than usual and the signal is between 0 and 1. (On their High Speed network)

Just for kicks I tried my iPhone instead since I noticed I have full signal and 3G. AT&T Kicks Verizon's butt (only in Misquamicut Beach, RI) LOL

Tethering Verizon 3G USB EVDO:

Tethering ATT 3G iPhone 3.0:
