

**05/07/07 - R.I.P. Haley Dog :(**

We had to let Haley go off to the other side today.  
She was 14ish years old and I hope had a good life with us after her life at MIT as a lab dog.

We were with her when she died, it was very peaceful but so sad.  
I don't really show that much emotion but this was too much. ?

She died of Kidney failure and an enlarged heart.  
We will miss you!
