

06/13/07 - WWDC 07 Day 3

Another Day at WWDC....

Leopard 10.5 is nice! Let me tell you some details.

Whats going on? oh man, I think Apple's powerful secret force field is blocking everything!

What kind of crazy power do they have? This picture was full of people and lots of code on the screen... but for some reason when I took it everyone and everything went blank!

Look for yourself!
